

REMARKS

This paper is responsive to a Restriction Requirement mailed September 18, 2007. Prior to this response, claims 1, 3-4, 7-10, 12-13, and 16-19 were pending. Following the withdrawal of claims 9 and 19, claims 1, 3-4, 7-8, 10, 12-13, and 16-18 remain pending.

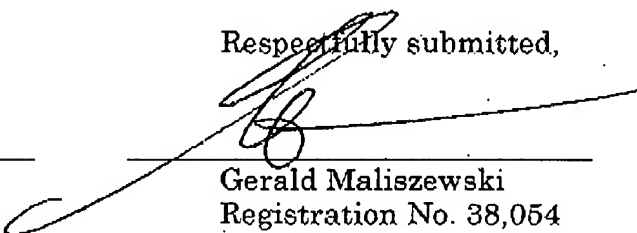

The Restriction states that the claims recite two different species. The Restriction states that species 1 describes a scanned to confidential print job communication that derives an encryption key from the password, hashing the password, hashing the access code, and regenerating the encryption key. The Restriction states that species 2 describes recovering a scan to confidential print communication.

In response to the Restriction Requirement the applicant elects species 1, which the examiner states is associated with claims 1, 3-4, 7-8, 10, 12-13, and 16-18. The Applicant cancels claims 9 and 19 without traverse.

It is believed that the application is in condition for allowance.

Respectfully submitted,

Date: 9/23/2007
